Draw Bee-bot square by square!

- Answers
- 1. forehead - chest
 - front leg
 - back leg - cheek
 - 2. chimpanzee

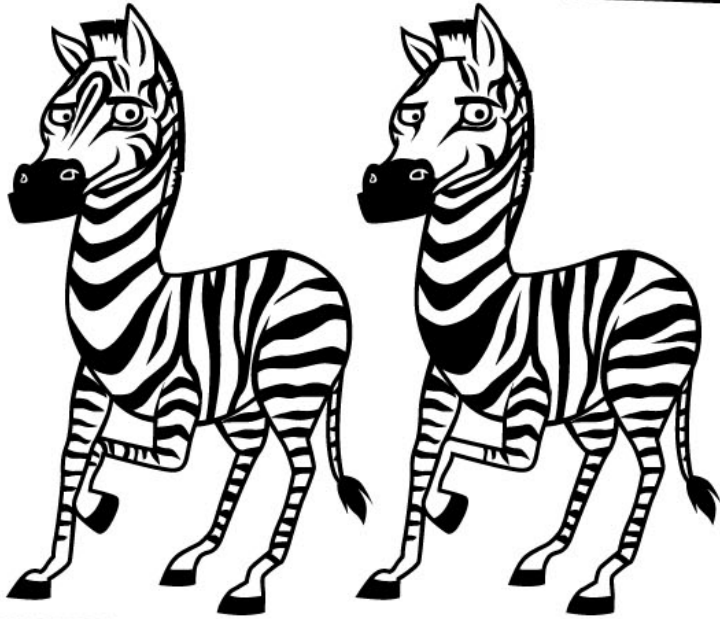

3.

Welcome to the African Safari!

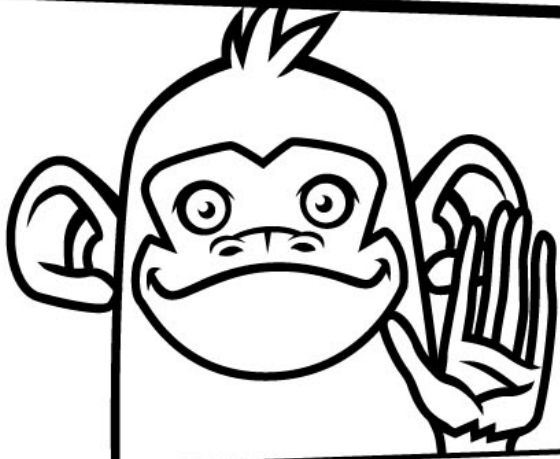

Hello Friend! I'm Bee-bot and together we will take a journey filled with adventure and learn about the most interesting animals from Africa.

1. NOT ALL STRIPES ARE THE SAME
Find the 5 differences between these two friends.

All the zebras appear to have white and black stripes that characterize each one of them. No two zebras are identical, each one is unique.

Z

2. WHAT DO THEY CALL ME?
This buddy is sure you know him.
Write down his name and show it to him!

3. RHINO IN TROUBLE

The little rhino is lost!
Help his dad find him.

Even though the rhinoceros have a heightened sense of hearing and smell, they don't see very well, which is why they sometimes attack rocks or trees confusing them with predators.

All the animals
want to play with you!

4. A DISCOVERY OF HEIGHTS

Connect the dots and find out which friend is anxious to see you.

Millions of years ago, the giraffe didn't have a long neck. As time passed, the giraffe's neck grew to about 6 feet so that it could reach the highest branches that no other animal can get to.
