OUR HOME

Planet Earth is our only home, here it is where all people, animals and plants live together.

THE ECOSYSTEMS

Earth has many kinds of ecosystems, some are aquatic and others terrestrial. The main ecosystems in our planet are: Jungle, Forest, Ocean, Tundra, Savannah, Desert, Meadow and Polar Zone.

Color the drawings and join with a line each name with the correct ecosystem drawing.

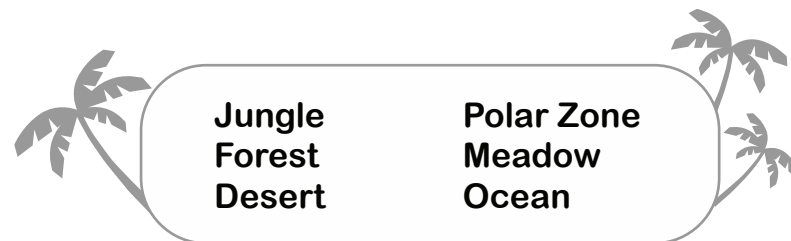

JUNGLE

POLAR ZONE

DESERT

WORD SEARCH PUZZLE

Find and circle the name of each ecosystem.

Care for your planet

We must keep our planet clean and take care of it. There are many ways we can help, for example: recycling, throwing the trash in its place and turning off the light when we don't need it.

Mark with an "X" those drawings that are NOT taking care of our planet and color those that do.

FIND THE HIDDEN MESSAGE

Using the code below put each letter in its place.
